URANIUM PARTICIPATION CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
THREE AND SIX MONTHS ENDED AUGUST 31, 2014

(Expressed in Canadian dollars, unless otherwise noted)

This Management's Discussion and Analysis ("MD&A") provides a detailed analysis of the financial condition and results of operations for the three and six months ended August 31, 2014, in comparison with the corresponding prior year periods. This MD&A is current as of October 2, 2014 and should be read in conjunction with Uranium Participation Corporation's (the "Corporation" or "UPC") unaudited interim consolidated financial statements and related notes for the three and six months ended August 31, 2014, prepared in accordance with International Financial Reporting Standards ("IFRS"). All dollar amounts are expressed in Canadian dollars, unless otherwise noted. All uranium prices are based on prices published by Ux Consulting Company LLC ("UxCo").

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain information contained or incorporated by reference in this MD&A constitutes forward looking statements or forward looking information. These statements can be identified by the use of forward looking terminology such as "may", "will", "expect", "intend", "estimate", "anticipate", "plan", "should", "believe" or "continue" or the negative thereof or variations thereon or similar terminology.

By their very nature, forward looking statements involve numerous factors, assumptions and estimates. A variety of factors, many of which are beyond the control of UPC, may cause actual results to differ materially from the expectations expressed in the forward looking statements. For a list of the principal risks of an investment in UPC, please refer to the "RISK FACTORS" section of UPC's Annual Information Form ("AIF") dated May 5, 2014, available on SEDAR at www.sedar.com, and any additional updates as mentioned in the "RISK FACTORS" section in this MD&A.

These and other factors should be considered carefully, and readers are cautioned not to place undue reliance on these forward looking statements. Although management reviews the reasonableness of its assumptions and estimates, unusual and unanticipated events may occur which render them inaccurate. Under such circumstances, future performance may differ materially from those expressed or implied by the forward looking statements. Except where required under applicable securities legislation, UPC does not undertake to update any forward looking information.

OVERVIEW

UPC invests substantially all of its assets in uranium, either in the form of uranium oxide in concentrates ("U_3O_8"), or uranium hexafluoride ("UF_6"), with the primary investment objective of achieving appreciation in the value of its uranium holdings through increases in the uranium price. Denison Mines Inc. (the "Manager"), under the direction of the Corporation's board of directors, provides general administration and management services to the Corporation. The common shares of the Corporation trade publicly on the Toronto Stock Exchange under the symbol U.

During the three months ended August 31, 2014, the uranium spot price as quoted by UxCo rose from US$28.25 per pound U_3O_8 at May 31, 2014 to US$31.00 per pound U_3O_8 at August 31, 2014. The 3½ year post-Fukushima low was reached in the market in May 2014 at US$28.00 per pound U_3O_8. As of the date of this MD&A, the U_3O_8 price is US$35.50 per pound. A number of market events were reported to generate a level of anxiety among buyers. These included the threat of Russian sanctions, the ConverDyn legal action regarding DOE uranium sales, reported production shortfalls and the strike action at Cameco's Key Lake and McArthur River (that was subsequently settled). Spot market volume was significant at approximately 4.5 million pounds U_3O_8 equivalent traded. Recent activity included the range of intermediaries, producers and utilities, although some level of volume may have been driven by medium-term fixed price sellers covering off forward price risk.

Following the quarter, the Corporation announced that Mr. Don Campbell was retiring as Vice President, Commercial. Mr. Campbell has been involved with the purchase of the Corporation's entire inventory and management of its inventory since the Corporation was formed. The Board would like to thank Mr. Campbell for all his hard work.

Following Mr. Campbell's retirement, Mr. Scott Melbye was appointed Vice President, Commercial. Mr. Melbye is a 30-year veteran of the nuclear energy industry having held key leadership positions in major global uranium mining companies and various industry organizations.

OVERALL PERFORMANCE

The following financial information was obtained from the Corporation's interim consolidated financial statements:

(in thousands, except per share amounts)	Three months ended August 31, 2014	Three months ended August 31, 2013	Six months ended August 31, 2014	Six months ended August 31, 2013
Unrealized gains (losses) on investments	$ 39,561	$ (68,138)	$ (80,787)	$ (87,245)
Net gain (loss) for the period	$ 38,466	$ (69,286)	$ (83,522)	$ (89,290)
Net gain (loss) per common share – basic and diluted	$ 0.33	$ (0.65)	$ (0.71)	$ (0.84)

Net gain for the three months ended August 31, 2014 was mainly due to unrealized net gains on investments of $39,561,000, slightly offset by storage fees of $651,000 and management fees of $395,000. The net loss for the three months ended August 31, 2013 was primarily related to unrealized net losses on investments of $68,138,000, storage fees of $556,000 and management fees of $435,000.

Net loss for the six months ended August 31, 2014 was mainly due to unrealized net losses on investments of $80,787,000, storage fees of $1,189,000, management fees of $818,000 and uranium purchase commissions of $487,000. The net loss for the six months ended August 31, 2013 was primarily related to unrealized net losses on investments of $87,245,000, storage fees of $1,071,000 and management fees of $877,000.

Unrealized net gains on investments during the three months ended August 31, 2014 were mainly caused by spot prices increasing to US$31.00 per pound U_3O_8 and US$87.00 per KgU UF_6 at August 31, 2014, from US$28.25 per pound U_3O_8 and US$81.00 per KgU UF_6 at May 31, 2014. Unrealized net losses on investments during the six months ended August 31, 2014 were caused by an overall decline in U_3O_8 and UF_6 spot prices from US$35.50 per pound U_3O_8 and US$99.00 per KgU UF_6 at February 28, 2014. The U.S. dollar to Canadian dollar foreign exchange noon-rate was 1.0858 at August 31, 2014, a decrease from 1.0867 at May 31, 2014 and 1.1075 at February 28, 2014.

Unrealized losses on investments during the six months ended August 31, 2013 were caused by weakening spot prices. At August 31, 2013, May 31, 2013 and February 28, 2013, spot price were US$35.00 per pound U_3O_8 and US$100.25 per KgU UF_6, US$40.50 per pound U_3O_8 and US$115.50 per KgU UF_6, and US$42.00 per pound U_3O_8 and US$120.00 per KgU UF_6, respectively.

UPC's net asset value per common share ("NAV")[1] decreased to $4.44 at August 31, 2014 from $5.15 per share at February 28, 2014. Total equity decreased to $518,856,000 at August 31, 2014 from $602,460,000 at February 28, 2014.

The substantively enacted future tax rates, in UPC's various jurisdictions, range from 3.0% to 26.5%. The Corporation had an effective tax rate of nil for the three and six months ended August 31, 2014 and 2013. Deferred tax assets were not recognized, resulting in an effective tax rate of nil, since it remained uncertain that sufficient taxable income would be available in future years to warrant recognition.

Investment Portfolio

UPC's investment portfolio consists of the following as at August 31, 2014:

(in thousands, except quantity amounts)	Quantity	Cost	Fair Value
Investments in Uranium:			
U_3O_8	8,676,811 lbs	$ 409,301	$ 292,060
UF_6	2,153,471 KgU	$ 353,357	$ 199,440 [2]
		$ 762,658	$ 491,500
U_3O_8 average cost and market value per pound:			
In Canadian dollars		$ 47.17	$ 33.66 [3]
In United States dollars		$ 43.44	$ 31.00
UF_6 average cost and market value per KgU:			
In Canadian dollars		$ 164.09	$ 92.61 [2][3]
In United States dollars		$ 151.12	$ 85.29 [2]

During the six months ended August 31, 2014, the Corporation purchased 850,000 pounds of U_3O_8 at an average price of $38.17 per pound of U_3O_8, for a total cash consideration of $32,441,000. All purchases were made during the first quarter of the fiscal year.

[1] See "Non-GAAP Financial Performance Measures"
[2] Includes a $3,987,000 fair value decrease adjustment for UF_6 inventory held at the USEC Enrichment Facility.
[3] Translation to Canadian dollars calculated at period-end foreign exchange noon-rate.

Uranium Lending Arrangement

The Corporation entered into a loan of the conversion component of 1,332,230 KgU as UF_6 in December 2009 for a three year term, which was subsequently extended an additional year. The conversion component loaned is subject to a loan fee of 4.5% per annum based on the greater of the month end conversion value per KgU as UF_6 or US$11.75 per KgU as UF_6. To facilitate the loan of the conversion component in December 2009, 1,332,230 KgU as UF_6 was transferred to the borrower with 3,480,944 pounds of U_3O_8 and an irrevocable letter of credit of US$15,700,000 from a major financial institution sent to UPC as collateral. In May 2013, the loan return date was amended with the borrowed quantity separated into two tranches: 1) a conversion component of 865,000 KgU as UF_6 ("Tranche 1"); and 2) a conversion component of 467,230 KgU as UF_6 ("Tranche 2"). The return date for Tranche 1 was amended from December 31, 2013 to July 15, 2013, while the return date for Tranche 2 was extended from December 31, 2013 to December 31, 2014.

On July 15, 2013, Tranche 1 was returned and the collateral held by the Corporation was reduced to 1,220,811 pounds of U_3O_8 and an irrevocable letter of credit of $6,563,000 (US$6,039,000). At August 31, 2014, the remaining conversion component loaned of 467,230 KgU as UF_6 had a market value of $3,678,000 (US$3,387,000).

Fair Value Adjustment on UF_6

In May 2013, the United States Enrichment Corporation ("USEC Enrichment Facility") announced that it ceased uranium enrichment at its Paducah Gaseous Diffusion Plant in Kentucky. At August 31, 2014, the Corporation has 1,077,000 KgU as UF_6 stored at the USEC Enrichment Facility with a fair value of $101,738,000. The Corporation has recorded a fair value decrease adjustment of $3,987,000 to reflect the liquidity risk of its UF_6 stored at the USEC Enrichment Facility. The Corporation plans to relocate this material to another enrichment facility through location swaps over the next two years and currently expects the cost of this process, if any, to be offset by the above noted fair value adjustment. The parent company of the USEC Enrichment Facility has successfully emerged from bankruptcy proceedings under the new name Centrus Energy Corp.

SUMMARY OF QUARTERLY FINANCIAL RESULTS

	August 31, 2014	May 31, 2014	February 28, 2014	November 30, 2013
Total income (loss), including unrealized gains (losses) on investments (in thousands)	$ 39,745	$ (120,144)	$ 9,521	$ 13,801
Net income (loss) for the period (in thousands)	$ 38,466	$ (121,988)	$ 8,254	$ 12,591
Net income (loss) per common share – basic and diluted	$ 0.33	$ (1.04)	$ 0.08	$ 0.12
NAV [1] – basic and diluted	$ 4.44	$ 4.11	$ 5.15	$ 5.07
U_3O_8 spot price (US$)	$ 31.00	$ 28.25	$ 35.50	$ 36.25
UF_6 spot price (US$)	$ 87.00	$ 81.00	$ 99.00	$ 102.50
Foreign exchange noon-rate (US$ to CAD$)	1.0858	1.0867	1.1075	1.0599

	August 31, 2013	May 31, 2013	February 28, 2013	November 30, 2012
Total income (loss), including unrealized gains (losses) on investments (in thousands)	$ (67,980)	$ (18,891)	$ 21,617	$ (74,999)
Net income (loss) for the period (in thousands)	$ (69,286)	$ (20,004)	$ 20,684	$ (75,085)
Net income (loss) per common share – basic and diluted	$ (0.65)	$ (0.19)	$ 0.19	$ (0.71)
NAV [1] – basic and diluted	$ 4.95	$ 5.60	$ 5.79	$ 5.60
U_3O_8 spot price (US$)	$ 35.00	$ 40.50	$ 42.00	$ 42.00
UF_6 spot price (US$)	$ 100.25	$ 115.50	$ 120.00	$ 119.75
Foreign exchange noon-rate (US$ to CAD$)	1.0553	1.0339	1.0285	0.9932

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents were $29,589,000 at August 31, 2014 compared with $64,553,000 at February 28, 2014. The decrease of $34,964,000 was primarily due to the purchase of uranium investments in March, April and May 2014 for total cash consideration of $32,441,000.

In February 2014, 10,522,500 common shares were issued at a price of $5.47 per common share for gross proceeds of $57,558,000 less issue costs of $2,684,000.

The Corporation's capital structure consists of share capital and contributed surplus. Uranium purchases are normally funded through common share offerings with at least 85% of the gross proceeds of share offerings invested in, or set aside for future purchases of uranium. In strictly limited circumstances, the Corporation can enter into short-term borrowing arrangements for up to 15% of its net asset value to facilitate the purchases of uranium.

In September 2013, the Corporation filed a normal course issuer bid ("2013 NCIB") with the Toronto Stock Exchange authorizing the Corporation to purchase up to 8,035,744 of the Corporation's common shares during the 12 month period commencing September 30, 2013 and ending September 29, 2014, or on such earlier date as the Corporation completes its purchases. At August 31, 2014, the Corporation has not repurchased any of its outstanding shares under the 2013 NCIB.

RELATED PARTY TRANSACTIONS

Denison Mines Inc.

Pursuant to its management services agreement with the Manager dated April 1, 2013, the Corporation will pay the following fees to the Manager: a) a commission of 1.5% of the gross value of any purchases or sales of uranium completed at the request of the Board of Directors; b) a minimum annual management fee of $400,000 (plus reasonable out-of-pocket expenses) plus an additional fee of 0.3% per annum based upon the Corporation's net asset value in excess of $100,000,000; and c) a fee, at the discretion of the Board, for on-going monitoring or work associated with a transaction or arrangement (other than a financing, or the purchase or sale of uranium).

The management services agreement has a three year term and may be terminated by either party upon the provision of 120 days written notice.

The following outlines the fees paid to the Manager for the periods noted:

	Three months ended		Six months ended	
(in thousands)	August 31, 2014	August 31, 2013	August 31, 2014	August 31, 2013
Fees incurred with the Manager:				
Management fees	$ 395	$ 435	$ 818	$ 877
Uranium purchase commissions	-	-	487	-
Net fees incurred with the Manager	$ 395	$ 435	$ 1,305	$ 877

As at August 31, 2014, accounts payable and accrued liabilities included $221,000 (February 28, 2014: $177,000) due to the Manager with respect to the fees indicated above.

Key Management Personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Corporation, directly or indirectly. UPC's key management personnel includes members of its Board of Directors. The Corporation does not employ any additional personnel, as its affairs are administered by the personnel of the Manager.

The following compensation was awarded to key management personnel for the periods noted:

	Three months ended		Six months ended	
(in thousands)	August 31, 2014	August 31, 2013	August 31, 2014	August 31, 2013
Directors' fees	$ 66	$ 48	$ 112	$ 97
Total key management personnel compensation	$ 66	$ 48	$ 112	$ 97

OUTSTANDING SHARE DATA

At October 2, 2014, there were 116,872,913 common shares issued and outstanding.

CONTROLS AND PROCEDURES

The Corporation's management is responsible for establishing and maintaining an adequate system of internal control over financial reporting. Any system of internal control over financial reporting, no matter how well designed, has inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

There has not been any change in the Corporation's internal control over financial reporting that occurred during the three and six months ended August 31, 2014 that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.

RISK FACTORS

There are a number of factors that could negatively affect UPC's business and the value of UPC's securities. Please refer to UPC's AIF for a detailed discussion of the material risk factors and their potential impacts on UPC's business.

Some significant changes or trends in economic conditions that occurred in the current fiscal year which, if continued, could materially affect the Corporation's future operating results are as follows:

Risks Associated with the USEC Enrichment Facility

The USEC Enrichment Facility, one of the licensed facilities where the Corporation stores UF_6, ceased enrichment operations in 2013. As a result, many utilities have sought enrichment services from other suppliers. With fewer enrichment customers, the USEC Enrichment Facility has less demand for the UF_6 in its facility. The Corporation has been working to book transfer its UF_6 from the USEC Enrichment Facility to other licensed facilities, but has had few opportunities to do so, due to the low demand for UF_6 at the USEC Enrichment Facility. While the Corporation is continuing to pursue opportunities, it may take a considerable amount of time to transfer its UF_6, and the Corporation may incur costs in doing so, which could be significant.

The Corporation's contract with United States Enrichment Corporation expires on December 31, 2015, after which the Corporation will have 180 days to remove its UF_6 from the facility.

Uranium Industry Competition and International Trade Restrictions

The international uranium industry, including the supply of uranium concentrates, is competitive. Uranium supplies are available from a number of sources including: a relatively small number of uranium mining companies; excess inventory from utilities and government sources; reprocessed uranium and plutonium from used reactor fuel; and excess enrichment capacity, which can be used for underfeeding or re-enriching depleted uranium tails. With these varying sources, the impact of a change in costs, government policies and other factors are beyond the control of the Corporation and may impact the supply of uranium and its market price.

The supply of uranium from Russia is, to some extent, impeded by a number of international trade agreements and policies. These agreements and any similar future agreements, governmental policies or trade restrictions are beyond the control of the Corporation and may affect the supply of uranium available in the United States and Europe, which are the largest markets for uranium in the world.

NON-GAAP FINANCIAL PERFORMANCE MEASURES

This MD&A contains references to NAV and "diluted NAV", which are non-GAAP financial performance measures. NAV is calculated as the value of total assets less the value of total liabilities, divided by the total number of common shares outstanding as at a specific date. Diluted NAV is calculated by adjusting the weighted average number of common shares outstanding for dilutive instruments. The number of shares included with respect to options, warrants and similar instruments is computed using the treasury stock method. The term NAV or diluted NAV does not have any standardized meaning according to GAAP and therefore may not be comparable to similar measures presented by other companies. There is no comparable GAAP financial measure presented in UPC's consolidated financial statements and thus no applicable quantitative reconciliation for such non-GAAP financial performance measure. The Corporation has calculated NAV and diluted NAV consistently for many years and believes these measures provide information useful to its shareholders in understanding UPC's performance and may assist in the evaluation of the Corporation's business relative to that of its peers.

The accompanying notes are an integral part of these unaudited interim consolidated financial statements.

1. URANIUM PARTICIPATION CORPORATION

Uranium Participation Corporation ("UPC") was established under the Business Corporations Act (Ontario) ("OBCA") on March 15, 2005. The address of its registered head office is 595 Bay Street, Suite 402, Toronto, Ontario, Canada, M5G 2C2.

UPC, including its subsidiary (collectively, the "Corporation"), invests substantially all of its assets in uranium oxide in concentrates ("U_3O_8") and uranium hexafluoride ("UF_6") (collectively "investments in uranium") with the primary investment objective of achieving appreciation in the value of its uranium holdings through increases in the uranium price. Denison Mines Inc. (the "Manager"), under the direction of the Corporation's board of directors, provides general administration and management services to the Corporation. The common shares of UPC trade publicly on the Toronto Stock Exchange under the symbol U.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

These interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34 *Interim Financial Reporting*.

These interim consolidated financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Corporation's year ended February 28, 2014 consolidated financial statements. These interim consolidated financial statements were authorized for issue by the Corporation's board of directors on October 2, 2014.

All dollar amounts are expressed in Canadian dollars, unless otherwise noted. All uranium prices are based on spot prices published by Ux Consulting Company LLC ("UxCo").

The accounting policies used in preparing these interim consolidated financial statements are consistent with those used in the Corporation's year ended February 28, 2014 consolidated financial statements.

Accounting Standards Issued But Not Yet Adopted

The Corporation has not yet adopted the following accounting pronouncements effective for the Corporation's fiscal periods beginning on or after January 1, 2018:

IFRS 9 *Financial Instruments*

On July 24, 2014, the IASB published the final version of IFRS 9 *Financial Instruments* ("IFRS 9"), which brings together the classification, measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 replaces the multiple classifications for financial assets in IAS 39 with a single principle based approach for determining the classification of financial assets based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. The final version of IFRS 9 is effective for periods beginning on or after January 1, 2018; however, it is available for early adoption.

The Corporation has not yet assessed the impact nor determined whether it will early adopt this standard.

3. INVESTMENTS IN URANIUM

The investments continuity summary is as follows:

(in thousands)		Cost		Fair Value Adjustment [(2)]		Fair Value [(1)]
Balance at February 28, 2014	$	730,217	$	(190,371)	$	539,846
Unrealized net losses on investments		-		(76,957)		(76,957)
Purchases of U_3O_8		32,441		(3,830)		28,611
Balance at August 31, 2014	$	762,658	$	(271,158)	$	491,500

The balance of investments in uranium consists of:

(in thousands, except quantity amounts)	Quantity		Cost		Fair Value Adjustment [(2)]		Fair Value [(1)]
U_3O_8	8,676,811 lbs	$	409,301	$	(117,241)	$	292,060
UF_6 [(2)(3)]	2,153,471 KgU		353,357	$	(153,917)		199,440
Balance at August 31, 2014		$	762,658	$	(271,158)	$	491,500

(1) Investments in uranium are categorized in Level 2 of the fair value hierarchy. Fair values reflect spot prices published by UxCo of US$31.00 per pound U_3O_8 and US$87.00 per KgU UF_6, translated at the noon foreign exchange rate of 1.0858 at August 31, 2014.

(2) At August 31, 2014, the Corporation has 1,077,000 KgU as UF_6 stored at the United States Enrichment Facility ("USEC Enrichment Facility") with a fair value of $101,738,000. In addition, the Corporation recorded a fair value decrease adjustment of $3,987,000 to reflect the liquidity risk on the Corporation's UF_6 held at the USEC Enrichment Facility.

(3) The Corporation has transferred 467,230 KgU as UF_6 to a third party and taken in exchange 1,220,811 pounds of U_3O_8, effectively lending the conversion component of the UF_6 (Note 6).

During the six months ended August 31, 2014, the Corporation purchased 850,000 pounds of U_3O_8 at an average price of $38.17 per pound of U_3O_8, for a total cash consideration of $32,441,000. All purchases were made during the first quarter of the fiscal year.

4. COMMON SHARES

The Corporation is authorized to issue an unlimited number of common shares without par value. A continuity schedule of the issued and outstanding common shares and the associated dollar amounts is as follows:

(in thousands, except common share amounts)	Number of Common Shares		Amount
Balance at February 28, 2014	116,872,913	$	831,130
Issue costs on common shares issued in February 2014	-		(82)
Balance at August 31, 2014	116,872,913	$	831,048

In February 2014, the Corporation closed an equity offering of 10,522,500 common shares at a price of $5.47 per common share for gross proceeds of $57,558,000 less issue costs of $2,684,000.

In September 2013, the Corporation filed a normal course issuer bid ("2013 NCIB") with the Toronto Stock Exchange authorizing the Corporation to purchase up to 8,035,744 of the Corporation's common shares during the 12 month period commencing September 30, 2013 and ending September 29, 2014, or on such earlier date as the Corporation completes its purchases. As at August 31, 2014, the Corporation has not repurchased any of its outstanding shares under the 2013 NCIB.

5. RELATED PARTY TRANSACTIONS

Denison Mines Inc.

Pursuant to its management services agreement with the Manager dated April 1, 2013, the Corporation will pay the following fees to the Manager: a) a commission of 1.5% of the gross value of any purchases or sales of uranium completed at the request of the Board of Directors; b) a minimum annual management fee of $400,000 (plus reasonable out-of-pocket expenses) plus an additional fee of 0.3% per annum based upon the Corporation's net asset value in excess of $100,000,000; and c) a fee, at the discretion of the Board, for on-going monitoring or work associated with a transaction or arrangement (other than a financing, or the purchase or sale of uranium).

The following outlines the fees paid to the Manager for the periods noted:

(in thousands)	Three months ended August 31, 2014	Three months ended August 31, 2013	Six months ended August 31, 2014	Six months ended August 31, 2013
Fees incurred with the Manager:				
Management fees	$ 395	$ 435	$ 818	$ 877
Uranium purchase commissions	-	-	487	-
Net fees incurred with the Manager	$ 395	$ 435	$ 1,305	$ 877

As at August 31, 2014, accounts payable and accrued liabilities included $221,000 (February 28, 2014: $177,000) due to the Manager with respect to the fees indicated above.

Key Management Personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Corporation, directly or indirectly. UPC's key management personnel includes members of its Board of Directors. The Corporation does not employ any additional personnel, as its affairs are administered by the personnel of the Manager.

The following compensation was awarded to key management personnel for the periods noted:

(in thousands)	Three months ended August 31, 2014	Three months ended August 31, 2013	Six months ended August 31, 2014	Six months ended August 31, 2013
Directors' fees	$ 66	$ 48	$ 112	$ 97
Total key management personnel compensation	$ 66	$ 48	$ 112	$ 97

6. INVESTMENT LENDING

The Corporation initially entered into a loan of the conversion component of 1,332,230 KgU as UF_6 in December 2009 for a three year term, which was subsequently extended an additional year. The conversion component loaned is subject to a loan fee of 4.5% per annum based on the greater of the month end conversion value per KgU as UF_6 or US$11.75 per KgU as UF_6. To facilitate the loan of the conversion component in December 2009, 1,332,230 KgU as UF_6 was transferred to the borrower, with 3,480,944 pounds of U_3O_8 and an irrevocable letter of credit of US$15,700,000 from a major financial institution sent to UPC as collateral. In May 2013, the loan return date was amended with the borrowed quantity separated into two tranches: 1) a conversion component of 865,000 KgU as UF_6 ("Tranche 1"); and 2) a conversion component of 467,230 KgU as UF_6 ("Tranche 2"). The return date for Tranche 1 was amended from December 31, 2013 to July 15, 2013, while the return date for Tranche 2 was extended from December 31, 2013 to December 31, 2014.

On July 15, 2013, Tranche 1 was returned to the Corporation and the collateral held by the Corporation was reduced to 1,220,811 pounds of U_3O_8 and an irrevocable letter of credit of $6,563,000 (US$6,039,000). At August 31, 2014, the remaining conversion component loaned of 467,230 KgU as UF_6 had a market value of $3,678,000 (US$3,387,000).
